Southern Notes,

The Warrior river, at Tuskalooss, had risen 50 feet on the 18th, and was still rising slowiy.

At a meeting of the Greenville and French Broad Raitroad Company, at Asheville, N. C., on the 12th it was ascertained that \$130, 060 have been subscribed to the stock.

Senator Brownlow passed through Lynchburg Friday evening, en route for Knoxville. He required the assistance of two men in going from one car to another.

The Bolivar, Tenn., Bulletin calls king

The Virginia Senate, Thursday, passed a bill appropriating \$15,000 for the purpose of enclaraging actual land purchasers and settlers to come to Virginia. The Board of Immigration will have authority to send three commissioners to Europe, two of the three to be nerives of Europe, now residents of Vir-

A lady in Lake City, Florida, has growing in her garden a genuine cork tree thirty feet high, the bark on which is sufficiently thick same garden a genuine black pepper bush, which yields regularly a full crop of the Buriel will be made Field Marshal.

A correspondent of the Chattanooga Times tells of two drovers from Tennessee who met at Atlanta. One had mules and the other hogs. Both complained of hard times and a dull market, each maintaining that his own stock was hardest to get eff. Finally they swapped stock in trade, upon the basis of three pounds of hog for one of mule, and each went on his way rejoicing in the belief that he had traded advantageously.

The Fort Gaines Messenger, of Friday morning, says that the river came to a stand there on Thursday morning, and had then risen to within two feet of high water mark in the "Harrison freshet," and higher than at any other time since; that great fears were entertained for the safety of the bridge over the Chattshoochee, but that it was then hoped it would stand with the loss of one pier and some lattice work on the Alabama side, which gave way with a loud crash on Wednesday night. It mentions the destruction of several in the "Harrison freshet," and higher than at wight. It mentions the destruction of several bridges over creeks, stoppage of mills, etc.

If oranges are not golden apples, and the groves of Florida a new Hesperides, there are indications that the culture of this fruit are indications that the culture of this fruit is becoming to be v. ry profitable. A Palatka paper mentions that Dummitt's grove, which only cost \$1,000 per annum, yielded last year 600,000 oranges, for which the proprietor received \$11,000; and that, with proper care, would give \$50 000 to \$75,000 yearly. - H. L. Hart's grove, at Palatka, yields him an income of \$15,000 to \$20,000 per annum. Arthur Ginn's rrov. at Melonville, of 1,100 tices, mass him \$12,000 to \$15,000 yearly, and is pars him \$12,000 to \$15,000 yearly, ard is worth \$100,000. M. DeBary, of New York, has agove near Enterprise of 20,000 trees Mr. Charles S. Brown, of New York, has one opposite P latks of 1,000 trees. It will be strange if the handsome profits of the business do not stimulate the culture of a fruit which is always sure of a n ar and ready CHAMBER OF COMMERCE.

On the 19.h instant Mr. G. Jordan, Gen On the 19th instant Mr. G. Jordan, General Superintendent of the Mobile and Montgomery Hallroad, telegraphed Mr. Nason, the tieset agent of the road at Mobile, as follows, viz: "Fort Deposit, March 19: I am yet unable to fix a day when we will resume business, but think trains can start on regular cehedules Monday moroing. I hope to get through by Saturday night, as I have a large and now well organized force at work over the entire road. The damage has been beyond anything thought possible. At least one hundred washes of various kinds have occurred, and there are many ous kinds have occurred, and there are many breaks of trestle, and a large number of stone culverts swept out. I worked yesterday at a wash thirty-five feet deep, and to-day on one thirty feet deep, and to-morrow will have another thirty feet deep; all have the training another librity feet deep; all have to be trestled. The water was up to the floor in Garland warehouse, about four feet higher than ever known before, and in some places six feet deep over our banks that were twenty-flye feet high."

A young man, who left Brooklyn three years ago to "go West and grow up," has just been heard from. He writes home to his friends, from Idaho, saying that the country is the most Seastful the sime ever shone on and the first state of the st on, and the inhabitants the most sociable he ever met. Also, that he expects to be hanged in about fourteen days for stealing a mule.

"A SLIGHT COLD" COUGHS -- Few are aware of the importance of checking a cough or "aligner cold" which would yield to a mild remedy, but if neglected, often attacks the lungs. "Brown's Bronchial Troches" give the lungs. "Brown's Bronchial Tro-sure and almost immediate relief.
